Discover the  
professional's choice.<sup>™</sup>

- Over 50% More Energy Efficient ♦
- Reduces Water Usage By Almost 40% ♦
- Reduces Refrigerant Use By Nearly 8% ♦
- Produced From 60% Recycled Content Stainless Steel

# The Responsible Choice ... From Elkay!

The innovative Elkay VRCGRN water cooler series provides greater energy efficiency, consumes less water and uses less refrigerant than any other comparable water cooler on the market. Primarily constructed in 60% recycled content stainless steel, the VRCGRN is manufactured without paints or coatings eliminating Volatile Organic Compound (VOC) emissions. This highly durable water cooler also utilizes a low-flow bubbler reducing the amount of water wasted down the drain. With these benefits, plus the highly recyclable content, the VRCGRN is the responsible choice.

Model	Design	Standard Features
VRCGRN8	Single	
LVRCGRN8F	Single	
VRCGRNTL8C	Double	
LVRCGRNTL8FC	Double
