AVADO®
Work Bench™

We are pleased to announce another innovative design from Elkay – the Avado® Work Bench™ product line, consisting of both top mount and undermount installation options. Manufactured from type 304 stainless steel with a polished satin finish, we have combined the functional features of the Work Bench partition with stainless steel's durability. The Work Bench features a wide bench that will comfortably hold a heavy stock pot filled with water, even allowing the sturdy bench to act like an extra set of hands holding it in one place while you work around it.

Features and Benefits

- Type 304 stainless steel with a polished satin finish that is easy to clean and offers years of dependable use
- Unique and functional Work Bench™ partition will support heavy pots and pans at a comfortable height without the worry of tipping over
- Extends the functional area of the sink without adding to the overall sink size
- Avado geometry – modern, symmetrical design
- 10" Bowl depth with zero radius corners, providing a deep and large compartment to hold practically any kitchen utensil or cookware
- Sound Guard® undercoating reduces condensation and dampens sound
- Elkay Limited Lifetime warranty for peace of mind
