Elkay Introduces New Sink Designs By Fu-Tung Cheng and Jamie Drake

Elkay announced the first phase of its Design Inspirations 08 family of sinks. The Ripple sink, designed by Fu-Tung Chang, “echoes the essence two pebbles dropped into a still pool, creating a shape as efficient as it is elegant.” The new Ripple sink combines sleek, fluid lines with versatile function makes a unique design statement in any new kitchen. The nearly six foot sink and drainboard are practical and useful for almost every type of food preparation. Cheng claims that his Rippel sink makes it possible to have something grand in a small space.

Jamie Drake’s addition to the Elkay family of products is the line of Vase sinks. Elkay claims that the new line represents Drake’s “artistic reinterpretation of classic vessels, breathing new life into a century-old shape and providing homeowners with the opportunity to make a sensuous statement in the home.” For more information on the new Elkay Sinks from Fu-
