### Elkay develops management positions

*Clark*

OAK BROOK, ILL. — Elkay Manufacturing Company made the following announcements:

- Leslie Clark was promoted to vice president of business excellence. In this newly created role, Clark will be responsible for leading Elkay's business practice review and standardization for the Plumbing Products Division (PPD), corporate and cabinet divisions. Clark will examine Elkay's processes across key areas of business operations and identify ways to increase the effectiveness and productivity in each area.

- Rich Dickson was named managing director of international sales. Dickson will leverage his global business relationships to identify and implement growth opportunities for Elkay's PPD. He will continue to build Elkay's international sales team and act as a liaison between existing and prospective global customers and Elkay's manufacturing facilities throughout the world.
