Reusable Fittings

Cash Acme's SharkBite push-fittings are designed to join copper, CPVC or PEX pipe in any combination. Insert the pipe and the stainless steel teeth bite down and grip tight, while a specially formulated O-ring compresses.

Fully Integrated Solar System

The Viessmann Manufacturing Company's line of solar thermal systems includes either the Vitosol 100 flat plate solar collectors or the Vitosol 300 vacuum tube collectors. Both packages include the Vitocell 100 or 300 hot water storage tank, Solar-Divicon pump station, Vitosolic control unit, solar expansion tank and system fill manifold.

Searchable Price Guide

The epriser from Allpriser Computer Services is being introduced on the company's Red Plumbing Price Guide. Similar to the printed Price Guide, the epriser puts the Price Guide pages directly on your computer. It will be expanded to all of the company's publications.

Vertical Spa Option

The Moentrol pressure-balancing control valve from Moen offers both water volume and temperature control. The three-function shower valve is compatible with a variety of plumbing connections.
