Faucets & Fixtures

Timeless look

The new Oldare faucet from Elkay brings the look of a farmyard pump to the modern kitchen with the benefits of today's water saving technology. A ceramic disc cartridge limits flow to

2.2 gallons per minute. They are constructed from solid brass and available in a variety of finishes, including antique brass, chrome, brushed nickel, old English brass, polished brass, polished nickel, pewter and oil rubbed bronze.

Elkay changes hands

Elkay Canada Ltd., Toronto, has been sold to Novanni Stainless Inc., a newly formed company owned by Oakville Stamping & Bending Ltd., Oakville, Ont. and Supreme Metal Products, Mississauga, Ont.

Novanni will continue to operate the company's Coldwater, Ont. plant, manufacturing Wessan, AMI and other Novanni-brand products. The company will also continue to distribute Elkay and Halsey Taylor products in Canada.

Says Elkay Plumbing Product Divisions president Steve Rogers: "We clearly see this move as the best strategy for Elkay to continue to grow in the Canadian marketplace..."

"We are also pleased that Novanni Stainless Inc. shares one of Elkay's core values – employees are a company's most important asset. We were thrilled that we were able to ensure the jobs of our Canadian employees."
