Kitchen & Bath Products

Fisher & Paykel. The *TallDishDrawer* offers several improvements over the maker's Dish-Drawer including a larger top drawer that will accommodate 13-inch plates; a redesigned racking system with a vertically adjustable, independent cup rack; and enhanced plate racks with folding tines. The Energy Star-rated unit offers a half-load function that will use as little as 1.98 gallons of water and half the energy, water, and detergent of a conventional dishwasher. 888.936.7872. www.fisherpaykel.com.

Elkay. With an Americana feel, the *Explore* sink family is made of fine fireclay. The sinks offer a simple design that fits well in a cottage or cozy urban-inspired kitchen. Created from natural materials, Explore fine fireclay sinks are available in terra cotta matte or white gloss finishes. Choose from two single-bowl designs or a large double-bowl model. 312.946.6075. www.elkayusa.com.

Moen. The maker's Showhouse brand now includes the *Fina* bath collection, a full suite highlighted by a WaterSense-labeled lavatory faucet. The faucet features lever handles, and a high-arc marquis-shaped spout for an attractive sheeting water presentation. The widespread and wall-mount faucets incorporate a flow-optimized aerator that offers a flow of 1.5 gpm, compared with traditional faucets at 2.2 gpm. The collection also features a Roman tub faucet, handshower, rainshower, and several accessories. Available in chrome or brushed nickel. 877.663.6741 www.showhouse.moen.com.

NuTone. *Decorative Fan/Lights* offer homeowners casual and contemporary bathroom décor without compromising ventilation. Two models are available for installation in flat ceilings only. Featuring a leaf detail and white alabaster glass fixture, model 761WHNT offers 80 cfm with a sound level of 2.5 sones. Model 768CHNT provides 100 cfm at only 3.5 sones in a polished chrome fixture with white opal glass. The fans exhaust air through inconspicuous vent openings in the light fixture's base. 888.336.3948. www.nutone.com.

American Standard. *Arch* faucets comprise a dramatic, clean-lined collection inspired by architect Eero Saarinen's design of the St. Louis Gateway Arch. High-arching and conventional-height spouts are available with or without pull-out sprays. The spray's design incorporates a toggle button on the underside, allowing for easy adjustment from stream to spray. Design-matched accessories include a base plate and a soap dish mountable anywhere on the counter surface. Available in polished chrome or stainless steel and equipped with washerless ceramic disc valves for leak-free performance, the maker says. 800.899.2614. www.americanstandard.com.
