What's Cool Everywhere Else

A Step Up

Offering a flexible, modular solution for the bathroom, **Ideal Standard's** Step line of vanities features removable organizers, towel holders and soft-closing mechanisms on the doors and drawers. Available in wenge, American walnut, glossy white or red lacquered finishes, the collection includes a selection of hardware to match any decor, as well as shelves and mirrors. **Circle No. 210**

Engineered Tough

Allant's Outdoor Kitchens' weatherproof Perma-Panel custom cabinets are made from a polymer that can withstand temperatures well above 100 degrees Fahrenheit or below freezing. The units are equipped with teak and cypress doors, which offer durability and resistance to moisture. **Circle No. 213**

Green Light

From **Bear Creek Glass**, Bella pendants feature seven different hues of recycled glass globes and LED technology. The fixtures are available in three styles—Bella (shown), Semi or Round globes—with solid, multicolored or frosted tones and come with a 16W LED lamp. **Circle No. 211**

Turning Up the Heat

Amba Products introduces the Eloy Collection of towel warmers, which feature a thin sheet of stainless steel that keeps towels warm and toasty at a preselected temperature while also serving as a space heater. Available in brushed nickel and polished finishes, each unit comes with a built-in controller, an energy-efficient programmable timer and a thermostat. **Circle No. 212**

Cascading Effect

Conceived by designer Fu-Tung Cheng, **Elkay's** Cascade Sink features a large, rectangular single bowl with a softly angled drainboard. The drainboard includes two sculpted surface planes that guide the water over a slightly cantilevered ledge to emulate a rock promontory waterfall. Made from stainless steel, the sink is 16 1/2 in. wide from front to back.

Circle No. 214

20/20 Vision

Axo Light's AX20 series consists of sleek one- and three-light pendants, as well as ceiling- and wall-mounted fixtures. All take a 60W G9 halogen lamp and are finished in chrome with black stems for adjusting the angle of light. The wall fixture with arm (shown) has a maximum height of 48 cm and a maximum depth of 47 cm. **Circle No. 215**

Stone Collecting

Made from natural materials, **Coast Hooks from Sea Stones** can be used for holding towels, clothing and accessories. Collected from private rivers and beaches throughout New England, the stones are combined with solid stainless-steel arms and solid cherry wood bases.
