Open Kitchens Boast Easy Traffic Flow and Spectacular Views

Designer: Siri Evju, CKD, CBD
Company: Siri Designs
Location: Portland, OR

Photo: Manier Creative

Removing a wall that blocked the view to the family room paved the way for this open kitchen. Designed by Siri Evju, CKD, CBD of Siri Designs, the cooking area – complete with six burner gas cooktop from Dacor and curved custom metal hood – acts as the room's backdrop, and is surrounded by walls of grain-matched European flat panel teak cabinets on both sides. Cambrian Black Satin honed granite countertops play off of the copper inlay in the black granite backsplash, and a stainless steel Sub-Zero refrigerator is teamed with an Elkay sink, Grohe faucet and paneled Bosch dishwasher.

2009 NKBA Design Competition

Category: LARGE BATHROOMS (more than 55 sq. ft.)

Large Bathrooms Showcase Mix of Personal Style and Substance

Designer: Lori Carroll
Co-Designer: Mary Roles
Company: Lori Carroll & Associates
Location: Tucson, AZ

Lori Carroll and Mary Roles of Lori Carroll & Associates created this adventurous and eclectic master bath for a client with an ultramodern home and a chic design sensibility. According to the pair, the focal point of the space is the curvilinear shower, the central element in the photo above, ringed by a glass countertop upon which sits a lav sink from Elkay and faucet from Grohe. The laminate cabinetry from Fairfield Cabinetry adds warmth and is intersected with suspended glass shelving for the homeowners' objets d'arts.
