

CHAMBERLAIN®

WIRELESS ALERT AND COMMUNICATION SYSTEMS

SECURITY AND CONVENIENCE
FOR HOME AND PROPERTY

MAKING ACCESS AND COMMUNICATION EASIER

The Chamberlain family of products is designed to meet all of your access and communication needs – whether powering gates and garage doors safely and securely, or providing wireless security and communication solutions.

Depending on the wide variety of homeowner's needs, Chamberlain has a garage access system solution for any application. Our LiftMaster® garage door access systems work with a variety of accessories and features, including our wireless products. As the world's largest manufacturer of garage door access systems, Chamberlain stands behind all of our products.

PROVIDING ENHANCED SECURITY AND COMMUNICATIONS INSIDE AND OUTSIDE THE HOME

Chamberlain® wireless alert and communication systems provide the comfort of knowing what is happening in and around the home and property.

Our pedestrian and vehicle alert systems send a signal as an invited (or uninvited) guest approaches, providing peace of mind to home and property owners.

It's simple for households wanting to communicate from room to room through a selection of compatible styles of interior and exterior intercom devices.

Chamberlain wireless systems are easy to install, program and use, and consume extremely low amounts of power. All systems have a wide range of applications that allow homeowners to set up security and communication systems throughout the house and all around the property.

• FRONT WALK • AROUND HOUSE PERIMETER • GARAGE • BACKYARD

• BEDROOMS • KITCHEN • GARAGE • BASEMENT • OUTSIDE

Alert and Communication Devices

Offering easy detection and alert of movement within 30 feet while providing up to a 1,200-foot transmission range. Home and property applications include:

- Driveway and front walk
- Garage and storage shed
- Backyard and play area
- Doors and windows

EXTERIOR ALERT SYSTEMS

PEDESTRIAN AND VEHICLE ALERT (RWA300RLM)

- Includes 1 interior base station and 1 exterior motion sensor
- Alerts with light and sound
- Detects motion up to 30 feet away
- Transmits signal to base up to 1,200 feet
- Wide 120-degree angle coverage
- Connect 1 base station with up to 4 weather-resistant sensors

PEDESTRIAN AND VEHICLE ADD-ON SENSOR (PIR2300RLM)

- Connect up to 4 motion sensors with the base station
- Detects motion up to 30 feet away
- Transmits signal to base up to 1,200 feet
- Wide 120-degree angle coverage
- Weather-resistant

EXTERIOR ALERT AND COMMUNICATION SYSTEMS

Crystal-clear, secure 900MHz digital communication.
