OPENING THE DOOR FOR SIMPLE AND SECURE HOME ACCESS SOLUTIONS
Chamberlain® Introduces New LiftMaster® Universal Remote Control
and Wireless Keyless Entry

Elmhurst, IL – February, 2008 – The Chamberlain Group, Inc., the leading access control innovator, understands the homeowner's need for a quick and efficient solution when having to replace a broken or misplaced automatic garage door opener remote control. Instead of tracking down owner's manuals, warranty policies and manufacturer brand names and model numbers, Chamberlain has taken steps to simplify the replacement process with the introduction of the LiftMaster Universal Remote Control and Universal Wireless Keyless Entry.

Designed for easy programming and simplicity, this product is ideal for a homeowner needing to replace a faulty or lost remote or can no longer identify their garage door opener brand. The innovative remote control also features multiple frequency technology, which can operate two different garage door opener brands, if needed. This flexibility and engineering intelligence of the LiftMaster Universal Remote Control provides the perfect solution for homeowners with unknown or more than one manufacturer's brand in their garage. The control also features a stylish design, which easily mounts to any car visor and is compatible with virtually any vehicle's interior.

In addition to the Universal Remote Control, Chamberlain has developed the Universal Wireless Keyless Entry, which provides homeowners with a safe, practical and reliable access solution for entering or exiting their garage. For those homeowners and families who rely on the garage door as the primary entrance into the home, the Universal Wireless Keyless Entry offers a secure entry, without having to juggle

more house keys or remote controls. Easy to program and featuring a backlit keypad for trouble-free nighttime use, the homeowner is encouraged to set their own private four-digit PIN, ensuring a secure and protected entry.

These professionally installed products are available at authorized LiftMaster dealers under the LiftMaster brand name, LiftMaster Universal Remote Control (Model 375LM) and LiftMaster Universal Wireless Keyless Entry (Model 387LM). For inquiries on LiftMaster products or to find an authorized LiftMaster dealer near you, please contact 800.528.6563 or visit www.liftmaster.com.

The Chamberlain Group, Inc. manufactures and markets access control products including residential garage door openers, commercial door operators, residential and commercial gate operators, telephone entry systems and related access control products.
