ELKAY[®]

sinks + faucets

1920

Elkay's enduring values and vision.

The Elkay Manufacturing Company began as a vision of Leopold Katz and his son Louis on the north side of Chicago back in 1920. Founded with the goals of manufacturing the highest quality sinks and providing the best service possible, the company began to thrive. As time went by, we set the pace with new products, designs and innovations that continue to lead the industry.

Today with more than 5,000 employees worldwide, we are the largest manufacturer of stainless steel sinks, as well as a name well known for high quality faucets, water coolers and drinking fountains.

The same goals that began four generations ago continue today. As a family-owned company, we're dedicated to your complete satisfaction.

Above all else, our word is our bond. We honor our commitments with integrity to our customers, employees, suppliers and the communities in which we live and work.

"From our family to yours, thank you for choosing the quality of Elkay."

Ron Katz, Chairman of the Board
Elkay Manufacturing Company

1940

**Quality.
Integrity.
Trust.**

These words represent how we do business. We are committed to world-class customer service, continuous improvement and employee involvement. In fact, quality is the personal responsibility of each of our employees. And we continually strive to develop and enhance their capabilities through training and education.

ELKAY[®]

sinks + faucets

Embracing your spirit of home.

You have a vision for your home - it begins with a spirit that inspires. Elkay provides a canvas to express your imagination and creativity. Here you'll find choices ranging from essential to astounding in sinks, faucets and accessories. If you've come to meet a basic need, realize your unique vision of beauty or find function equal to your culinary passion, we bring you limitless possibilities.

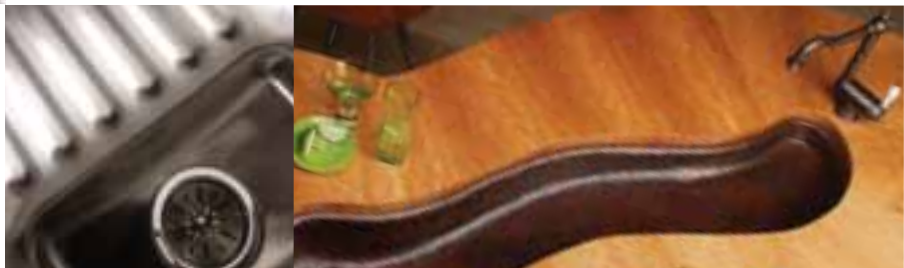

Creating a new kitchen or bath space can be a daunting task. We invite you to learn more about how to select the right sink and faucet for the job, and simultaneously, complement the visual landscape of your home.

Geometry, geography and general purpose.

At Elkay, we've organized our sinks and faucets into style families which mirror today's popular design categories, such as modern, contemporary and transitional. Whether you envision straight-lined simplicity or a more textured motif, we can help.

To make your selection a simple and enjoyable experience, Elkay sinks are grouped by geometric shape, geographic preference or general purpose by room. We have paired companion faucet families for your convenience. We invite you to explore today's Elkay sink and faucet choices and discover for yourself why we're America's number one selling stainless steel sink company.

sinks + faucets

Elkay offers a full line of ADA (Americans with Disabilities Act) compliant products. We have designed ADA products to comply with every aspect of the ADA Accessibility Guidelines: specific heights, depths and recess standards, wheelchair clearances, spout heights and locations, control mechanism designs, ease of operation, positioning and more. We offer a large selection of ADA-compliant sink models with and without off-center drains. Applicable units will be provided in the specified depths of 5-1/2", 6" or 6-1/2".

Refer to our sink section beginning on page 9 to determine which specific sink models are available in ADA versions. To order a specific depth, reference the corresponding two-digit number – 45, 50, 55, 60 or 65. For example: To order an LRAD1720 unit with a 5-1/2" depth and two faucet holes, request model number: LRAD1720552.

See specification sheet for drain locations and other specific product information.

Quick-Clip®

Elkay's Quick-Clip® sinks are designed for multiple sink installations, such as schools, hospitals and other projects. Compared to other top mount systems, Elkay's Quick-Clip sinks are much easier to install and save considerable installation time.

This catalog lists the Quick-Clip® models available. Look for the icon to identify which sink models are available with the Quick-Clip mounting system. To order a Quick-Clip version sink, add a "Q" to the model number. For example: To order an LR3322 sink with Quick-Clip, request model number LRQ3322.

Online Specifications

For the most up-to-date specification on Elkay's products, visit our web site at www.elkayusa.com.

Enter the **Model Number** or keyword into the text box:

1. Click on the **arrow** to search,
2. Find the listing for the **product** you are looking for, and
3. Click on the **magnifying glass** next to the words "**specification sheet**" to view the spec sheet.

It's instant access to specification information. Just print!

Many Elkay sinks are listed by the International Association of Plumbing and Mechanical Officials as meeting the requirements of the Uniform Plumbing Code. For specific information, contact your supplier.

Many Elkay sinks are listed with the Canadian Standards Association. For specific information, contact your supplier.

All Elkay self-rim sinks are designed, engineered and warranted for top mount countertop installations only following our installation instructions. The only Elkay sinks designed and warranted for undermount solid surface countertop installations are those identified as undermounts or universal mounts.

Most Elkay stainless steel sinks comply with the ASME Standard A112.19.3 Stainless Steel Plumbing Fixture, Designed for Residential Use. Copy of Elkay's Warranty on sinks and faucets is available upon request.

In keeping with our policy of continuing product improvement, Elkay reserves the right to change product specifications without notice.
