## **ELKAY'S VESSELS SHAPING NEXT GENERATION OF SINKS**

*Elkay's Asana™ Cast Vessels Available in Three Inventive New Shapes*

---

OAK BROOK, IL – April 2006 – One of Elkay's missions is to continue to create high-quality sinks that meet the ever-changing needs of today's consumers. This is why Elkay expanded its Asana™ vessel collection to include three new models made from cast brass with an aged-bronze finish. Elkay's Asana™ collection features a stainless steel vessel sink, but as vessels continue to grow in popularity, Elkay wanted to extend its offering to give homeowners more options in this category.

The vessels are available in three innovative shapes which mirror nature, including a sphere (KBCB16BA), an oyster (KBCB1812BA) and a basket weave (KBCB19WBA) bowl. The sphere shape is global in its appeal and can coordinate with a variety of lavatory or secondary sink settings. The oyster shape is inspired by the trend of reflecting travel experiences into home decor; it reflects the feeling of a soothing, calming day at the beach. Finally, the basket weave emulates natural textures with the design on its outer wall, and the appearance of this bowl easily complements most sleek, contemporary and modern rooms.

Each vessel demands the attention of those in the room, as all the models can be mounted on the countertop. Also, the top rim on each vessel is accented with a
