ELKAY'S ISLAND SINK – PERFECT FOR ENTERTAINING IN THE KITCHEN

OAK BROOK, IL – April 2006 – Elkay's new Island sink (ISLAND3828C) adds drama to this centerpiece of the kitchen. This original sink design features a faucet mounted in the middle of the sink, providing the perfect statement-making centerpiece for any kitchen.

The Island is equipped with a swivel-based Elkay Arezzo™ faucet (LK7420CR) that can be rotated 360 degrees around the sink, which makes the faucet accessible from any direction. The sink and faucet pairing allows guests or family to gather around the Island sink and actively participate in the meal preparation, entertaining or socializing.

Also, the sink's large scale design and dimensions (40-1/2" x 30-1/2" with a bowl depth of 7-1/2") make it the ideal choice for a secondary sink because it can accommodate eight people around it. In addition, the sink's deep-bowl design makes it perfect for filling or cleaning large pots or trays.

The Island sink has a manufacturer suggested retail price ranging from \$2,370 for the sink and a strainer to \$3,047 with the sink, faucet and strainer.

Elkay is America's number one selling stainless steel sink company. For more than 86 years, Elkay Manufacturing Company has been an innovative manufacturer of
