STAINLESS STEEL COUNTERTOPS SHINE IN RESIDENTIAL SETTING

Elkay's Mystic[®] and Avado[™] Sinks Showcased in Custom Stainless Steel Countertops

OAK BROOK, IL – April 2006 – More than 86 years ago, Elkay began as a pioneer in the production of stainless steel sinks. Now, the company is revolutionizing its existing product line by showcasing its ability to customize seamless stainless steel countertops and integrate them with its sinks and faucets. Elkay will highlight its versatility in creating custom stainless steel countertops by integrating both a Mystic[®] and Avado[™] sink with custom tops at this year's Kitchen and Bath Industry Show.

The custom countertop featuring the Mystic[®] will have a smooth design with rounded edging, whereas the Avado[™] countertop will have crisp corners and dramatic 90-degree edges. Bringing stainless steel countertops into the residential setting is a way to add style and transform a traditional kitchen into an area ideal for a gourmet dining experience. In addition to style, the stainless steel countertop provides the functionality of a long-lasting, durable finish and the seamless design allows for easy clean-up.

Elkay's custom stainless steel countertops can be fabricated to match seamlessly with many of Elkay's vast array of sink styles. Pricing varies depending on the size and scope of each individual custom countertop creation.
