Revere® Introduces New Faucet Line for Fabricators
*--Seven New Faucets Join Stainless Steel Sinks & Accessories
To Create a Rock Solid Combination--*

OAK BROOK, IL – July 2008 – Revere Sink is expanding its line of stainless steel sinks and accessories with the introduction of seven new faucets, providing countertop fabricators with a complete, customized look for each of their customers. Until recently, very few fabricators sold faucets, but this trend continues to grow as an increasing number of fabricators recognize the complete sink solution as a means to further build incremental profits. By increasing its product offering to include faucets, Revere aims to provide a one-stop shop for both fabricators and their customers.

With seven models, two different finish options and multiple price points, Revere offers the ideal faucet for every homeowner. The new line of single lever faucets includes two pull-down models (CF5001, CF7322), two pull-out models with dual spray (CF6360, CF5000), one model with side spray (CF5002), one pre-rinse model with 360-degree rotation (CF7420) and a bar/hospitality faucet (CF6510). In addition to the style, fabricators can also help each customer select the finish that best complements their sink and countertop, as the new faucets are available in both chrome and brushed nickel, two of the most popular finishes among homeowners according to a recent *Home Channel News* article.

The solid brass construction of each faucet spout, base and handle ensures a low maintenance, easy-to-clean faucet that resists rust, discoloration and damage over time. In addition, all Revere faucets feature removable ceramic disc cartridges, which protect from debris and hard water for reliable and dependable performance.

REVERE INTRODUCES NEW FAUCET LINE FOR FABRICATORS – PAGE TWO

Since all faucets are in-stock and readily available, fabricators can place one order for a Revere sink, faucet and any additional accessories, and the shipment will arrive when they need it. To ensure easy installation, the CF5000, CF5001 and CF5002 models are equipped with 30-inch stainless steel supply hoses that connect directly to the water line. Revere also offers a limited warranty on the new faucets and an ADA compliant model (CF6510).

The MSRP price range for the Revere faucet line is \$135 - \$769, depending on the faucet model and finish.

Headquartered in Oak Brook, Illinois, Revere Sink has been in the business of manufacturing stainless steel sinks since 1968. With most models in-stock, Revere offers quick delivery of quality products. Known for superior domestic sales and service, Revere is committed to customer support and satisfaction.
